Build Anything Better.™

4" Logix Pro Buck™

The 4" Logix Pro Buck™ is used to frame window and door openings when Logix 4" Pro or KD forms are specified.

BENEFITS

- High density 2 lb. foam provides a strong and dependable form that stays in place, eliminating thermal bridging and optimizing the overall thermal stability of the wall
- Provides secure and reliable fastening for doors and windows, while anchoring to the concrete core of the wall
- Clips end-to-end, minimizing waste
- Permits picture framing (when required) that does not have to be removed for finishing

APPLICATIONS

- Window Openings
- Door Openings
- Terminating Walls

SIZES & SPECS

Piece — 4' (1220 mm) x 9.5" (241 mm) x 1.5" (38 mm)
